## SUMMARY

I am a motivated and detail-oriented BCA graduate with a CGPA of 8.45, currently pursuing an MCA from Mumbai University at Late Bhausaheb Hiray S.S. Trust's Institute of Computer Application. I specialize in full-stack development with expertise in React, Tailwind CSS, Node.js, Express.js, and MongoDB. My technical proficiency spans frontend and backend development, enabling me to build responsive, efficient, and scalable digital solutions. I have completed several projects showcasing my problem-solving ability and passion for creating user-focused applications. As the Team Coordinator of the Placement Cell, I manage student engagement and recruitment coordination while enhancing collaboration between students and recruiters. With a commitment to continuous learning and innovation, I aim to contribute to dynamic teams and deliver impactful software solutions.

## PROJECTS

### Comprehensive Education Management System | Jan 2025 – May 2025

[https://github.com/Aniketpal0402/Comprehensive\\_Education\\_Management\\_System](https://github.com/Aniketpal0402/Comprehensive_Education_Management_System)

- EDUMATE is a web-based education management system that simplifies academic and administrative tasks like student enrollment, class scheduling, note uploads, assignment submissions, announcements, complaints, and feedback
- Offers a centralized platform for students, teachers, and admins to communicate, manage tasks efficiently, and enhance the overall learning experience through a user-friendly digital interface.

### Facebook Clone | Aug 2024 – Oct 2024

[https://github.com/Aniketpal0402/minebook-facebook\\_clone-](https://github.com/Aniketpal0402/minebook-facebook_clone-)

- A Facebook clone built using Node.js, Express, and MongoDB, featuring user registration, login authentication, and a profile page.
- A simple project showcasing basic user management and backend integration.

### Alarm Clock | April 2024 – April 2024

<https://github.com/Aniketpal0402/alarm-clock>

- Developed a fully functional alarm clock using HTML, CSS, and JavaScript, allowing users to set, manage, and delete alarms with a user-friendly interface
- Implemented dynamic time updates, audio notifications, and responsive design for seamless performance across devices.

### Rock Paper Scissor game | March 2024 – March 2024

[https://github.com/Aniketpal0402/rock\\_paper\\_scissor\\_game](https://github.com/Aniketpal0402/rock_paper_scissor_game)

- Developed an interactive Rock-Paper-Scissors game using HTML, CSS, and JavaScript, featuring dynamic user input and real-time result updates
- The project demonstrates fundamental concepts of DOM manipulation, event handling, and game logic implementation.

EDUCATION
